ADVENTURE HUNTS

Operation Nature Calls, City Slickers, Amazing Race. These are outdoor walking and driving Adventure hunt suitable for a Group size from 10 - 500

HOW THESE ADVENTURE HUNTS WORK:

Your group will be divided into teams of **up to 10**

people. Each team will receive a clue collection bag, knapsack, duffle bag) containing their challenge sheet - the hunt itself - and various supplies. They will then embark on the hunt, finding the Amazing race clue boxes, taking pictures, obtaining specific items and completing Clues and tasks and a creative project all worth valuable points. At the conclusion of the hunt, the teams will do a final presentation or we "grade" their clue sheets to find the winners based on point total.

TEAM OBJECTIVE: Form an efficient and effective team that communicates well, works by consensus and has a definite plan of action to complete this adventure hunt.

THIS IS WHAT THE TEAMS WILL BE MEASURED ON: 1) Their ability to complete this Adventure hunt by forming a successful, functional team that works by consensus and in which all members participate equally and with enthusiasm. 2) Their communication skills. 3) Their ability to find the hidden strengths in their team members. 4) Their ability to regularly review and evaluate team effectiveness and be willing to take action. 5) Their creative abilities. 6) Their point total.

EXAMPLES:

Adventure hunt challenges are broken down into 3 categories: pictures (about 17), item collection (about 14) and projects.

1. Collect an unusual, clever or creative item. **GPS CAN BE USED**
2. Have your most artistic team member collaborate with someone you've never meet to draw a picture on the appropriate page in your team album.
3. Take a picture of 3 of your team members with a construction worker or complete stranger who happens to be drop dead gorgeous (When Nature Calls). You must be in the classic Village People "YMCA" pose.

NOTE: These hunts are NOT riddle hunts BUT CAN BE ADAPTED TO INCORPORATE THE COMPANY THEME.
