

TEAM ARCHERY

A one-hour session with an experienced archery instructor. Full tuition will be given on the art of using a recurve longbow (a normal bow and arrow!) Each instructor can look after up to eight people during an hour session. Each participant will be taught how to hold a bow, aim and shoot at a full size archery target using Carbon shafted arrows.

Archery Participants will shoot a series of practice arrows which will allow the basics to be mastered before the session moves on to a competition round (usually 9 arrows per person).

Throughout the duration of the event most participants will see a real improvement in their accuracy and ability. Most people begin with no experience and can only just get an arrow on target – by the end of the session some impressive scores can be achieved.

What is included in your Teambuilding?

- Bandanas
- MC
- Facilitation Staff
- A huge array of materials and equipment
- Event Set Up and Logistic Management

Group Size

10 - 200

Time

1- 2 hours
